

# Tenggis Munkhbaatar

## Frontend / Fullstack Engineer

**Email:** diditrimorum72@gmail.com

**LinkedIn:** /in/tenggis-munkhbaatar-2a32b025a/

---

### TECHNICAL SKILLS

React, Next.js, TypeScript/JavaScript, Vue.js, Node.js (Express, tRPC), PostgreSQL, Prisma, TailwindCSS, Headless UI, ECharts, Zustand/Redux, Elixir, Phoenix, Web3 (Thirdweb, wagmi, wallet flows), Jest, Cypress

---

### PROFESSIONAL EXPERIENCE

#### Fullstack Engineer – StableLab

May 2025 – Oct 2025 (Remote)

- Contributed to insights.forse.io, a **DAO** analytics web app, using **Next.js**, **Express.js**, **tRPC**, **Prisma** and **PostgreSQL**.
- Implemented dashboards with **Headless UI**, **TailwindCSS**, **ECharts** and **Web3** features (wallet connect, on-chain DAO metrics) via **Thirdweb**.
- Migrated the existing wallet integration from **wagmi** to **Thirdweb** to simplify setup and improve reliability of connect/sign flows.

#### Freelance / Fullstack Engineer

Jan 2025 – Apr 2025 (Remote, Germany)

- Developed a **B2B** restaurant–supplier logistics platform for a German client using **Next.js**, **TypeScript**, **Elixir**, **Phoenix/Ecto** and **PostgreSQL**.
- Built a back-office app with role-based access control and order/inventory flows, collaborating directly with the client on specs and UX.

#### Frontend Engineer – Mezorn Technology LLC

Sep 2021 – May 2024 (Ulaanbaatar, Mongolia)

- Built and maintained several back-office systems with **React** and **Next.js**, serving 2M+ active users across products.
- Led development of Tetgeleg (scholarship platform back office) used by 500K+ users and handling 1M+ requests.
- Contributed to tools for UbEats (office food delivery), UbCab (ride-hailing with 1M+ users and 45K drivers), an auction platform (real-time bidding with **Socket.io**) and a gaming item marketplace.
- Improved delivery speed by creating reusable UI components and helping introduce testing with **Jest** and **React Testing Library**.

#### Junior Software Engineer - Starsoft LLC

Jun 2020 – Aug 2021 (Ulaanbaatar, Mongolia)

- Worked on an EduTech platform with interactive presentations (create/convert slides) and live classes, using **Vue.js** on the frontend and integrating with a **Node.js** backend.
