FRONT-END ENGINEER

Frontend Engineer with over 3 years of experience in building reliable and user-friendly web applications. Proficient in React, Next.js, and TypeScript, with a focus on creating clean, maintainable code and responsive designs. I enjoy collaborating with teams to solve complex problems and continuously learning to improve my skills and contribute to meaningful projects.

TECHNICAL SKILLS

- **Frontend Development:** React, Next.js, Vue.js, JavaScript, TypeScript
- **UI Libraries & Frameworks:** Ant Design, Mantine UI, TailwindCSS, SASS
- **State Management:** Zustand, Redux, Context API
- **Styling:** TailwindCSS, SASS, LESS
- **Build Tools:** Vite, Webpack
- **Testing:** Jest, React Testing Library, Cypress

PROFESSIONAL EXPERIENCE

Front-end engineer   Sep 2021 - May 2024
Mezorn Technology LLC   *Ulaanbaatar, Mongolia*

- Built, optimized and maintained 4 scalable back-office systems, managing a combined user base of over 2 million active users, using **React.js**, **Next.js**, and **TypeScript**.
- Improved team efficiency by developing 10+ reusable components, reducing development time by about 15%.
- Integrated robust testing workflows with **Jest** and **React Testing Library**
- Collaborated with design teams to implement 10+ Figma designs into responsive, production-ready solutions.
- Enhanced platform performance and **SEO** visibility through optimized UI and component design
- Worked in **agile** environments (**Scrum**), collaborating closely with backend engineers to design and implement seamless **API**s.

Jr. Front-end engineer   Jun 2020 - Aug 2021
Starsoft LLC   *Ulaanbaatar, Mongolia*

- Expanded an EduTech platform with interactive features like creating and converting presentations, live classes using Vue.js and Node.js.
- Created the back-office system for managing classes, students, and teacher accounts.

KEY PROJECTS

- **Tetgeleg (Scholarship Platform)**: Led a team of four to develop a dynamic back-office system with customizable user roles and menu items, handling over 1 million requests and supporting 500,000 active users // tetgeleg.mn
- **UbEats (Office Food Delivery System)**: Built a back-office system for a platform with 50K downloads and 10K active users, enabling corporate meal ordering // ubeats.mn
- **UbCab (Uber-like Platform)**: Contributed to refurbishing the back-office and main webpage of a highly successful project with over 1 million active users and 45,000 drivers, focusing on performance and user retention // ubcab.mn
- **Bidend (Auction Platform)**: Developed an interactive auction platform with real-time bidding from scratch using Socket.io // bidend.mn
- **Mezorn Landing Page**: Translated Figma designs into a responsive, SEO-friendly company website using Next.js and TailwindCSS // mezorn.com
- **Lann (Gaming Item Exchange Marketplace):** Built a management system for peer-to-peer gaming item trading platform, achieving 1K users in the first week // lann.market
